@ProlinkTV

www.prolinktv.co.uk

**Here at Prolink we've been offering fully featured multi-camera Outside Broadcast and Portable Production Solutions to broadcasters and production companies since 1989.**

We're happy to take on any assignment from the simplest two camera webcast through to the highest profile national events. In recent years we have been entrusted by the BBC and ITV to participate in the coverage of the Papal Visit to the UK, The Royal Wedding, General Elections, the Queen's Diamond Jubilee celebrations and most recently the Rugby World Cup.

Our philosophy is simple - an industry beating service ethic, the finest equipment and friendliest, most capable crews all at the keenest prices - there we told you it was simple. You won't find us caught up in the demands and distractions of long running OB contracts, instead we focus 100% of our attention on delivering bespoke, impeccably planned and executed technical solutions for you.
